PROFESSIONAL SUMMARY

Passionate and detail-oriented Software Developer with 1.5+ years of professional experience in developing scalable web applications, AI-powered solutions, and Shopify-based platforms. Skilled in Laravel, React.js, PHP, Shopify integrations, and payment gateway implementation. Experienced in building SaaS applications, chatbot systems, affiliate platforms, and responsive user interfaces with strong backend architecture and API development expertise.

TECHNICAL SKILLS

Frontend :
HTML5, CSS3, React.js, JavaScript, Shopify Liquid

Frameworks & Backend :
Laravel, Craft CMS, PHP 8+

Database :
MySQL

Tools & Platforms :
Git, Docker, Shopify, Shopify Polaris, OpenAI API Webhooks

Testing Methodologies :
Black Box & White Box Testing, Functional Testing, API Testing, Cross-Browser Testing

PROFESSIONAL EXPERIENCE

Junior Software Developer **Oct 2024 – Present**
Brainfleck Solutions

- Developed and maintained full-stack web applications using Laravel, React.js, PHP, and MySQL.
- Built scalable backend APIs and business logic for Shopify and e-learning platforms.
- Worked on AI-powered chatbot integrations using OpenAI API and Shopify ecosystem tools.
- Developed responsive frontend interfaces using React.js, JavaScript, jQuery, HTML5, CSS3, Ajax, and Blade Templates.
- Integrated third-party services including Shopify APIs, Razorpay, Cashfree, and Webhooks.
- Collaborated with cross-functional teams to design, develop, test, and deploy scalable applications.
- Managed database operations, optimization, and API performance improvements.
- Used Git and Docker for version control, deployment workflows, and development environment management.

INTERNSHIP

Software Developer Intern **Apr 2024 – Sep 2024**
Brainfleck Solutions

Worked as a Software Developer Intern, contributing to full-stack web application development using Laravel, React.js, PHP, and MySQL. Assisted in API integration, frontend development, database management, and feature implementation while collaborating with the development team on scalable and user-focused solutions.

PROJECTS

Chatara AI – Smart Assistant (Shopify Application)

- Developed an AI-powered Shopify chatbot using OpenAI API for natural-language customer interactions, product discovery, recommendations, and conversational memory.
- Implemented real-time product and order synchronization using Shopify Webhooks and MCP integration.
- Built a customizable React + Shopify Polaris admin dashboard for configuring chatbot appearance, behavior, and store integration.

ChalDigital – Affiliate Marketing Education Platform

- Developed a complete affiliate marketing and course-learning platform with course management, enrollment, checkout, and certificate functionality.
- Built an admin dashboard to manage users, courses, orders, affiliate earnings, and referrals with automated payment/account verification.
- Implemented interactive user dashboards for learning progress, enrollments, referral tracking, and earnings management.

Questly (QuizPilot) – Shopify Product Quiz App

- Developed a Laravel + React Shopify app enabling merchants to create interactive product quizzes and provide personalized product recommendations.
- Built a no-code quiz builder and admin panel using Shopify Polaris, Theme App Extensions, Shopify APIs, OAuth, webhooks, and billing.
- Integrated Mailchimp, Klaviyo, ActiveCampaign, Zapier/Make for lead capture and CRM/marketing automation.

Repilo – Shopify Loyalty & Rewards App

- Developed a Shopify loyalty platform with configurable points, rewards, referrals, VIP tiers, and redemption features using Laravel, React, and Shopify APIs.
- Implemented real-time customer/order synchronization and points reconciliation using Shopify Webhooks and ledger-based balance tracking.
- Built merchant dashboards and storefront experiences using Shopify Polaris, App Bridge, and Theme App Extensions, with third-party integrations such as Judge.me.
